

## **November 2012 SERVICE SEMINAR INFORMATION**

### **PURPOSE**

Nihon Kohden America Service Seminars are intended to provide attendees with a working knowledge of the Nihon Kohden Digital Systems for the purpose of equipment malfunction identification and correction. This seminar will be at circuit board level utilizing system analysis troubleshooting techniques.

The **EEG/PSG** Biomedical Service Seminar for the EEG-1200 and 9000 series systems will include, system operations, Signal and data flow analysis, hardware/software installation and configuration, symptom analysis and troubleshooting techniques. A basic introduction into EEG will also be presented.

The **IOM/EMG** seminar will also cover operation, system configuration (standard and optional) both software and hardware, block diagram signal flow analysis, symptom analysis troubleshooting techniques and disassembly. A basic introduction to IOM/EEG will also be presented.

### ***IT Seminar (Offer in May 2013 only)***

The Seminar for IT Professionals will focus on the needs of the EEG-1200 and 9000 series systems from a Domain operational standpoint. This course will discuss SQL database operations and installation, Domain permissions and access rights for users and storage, Active Directory operations and requirements, Client installation and configuration, Remote access (VPN, RDP, Citrix) requirements, symptom analysis and troubleshooting. A basic introduction to EEG will also be presented.
